**A CONCISE PACK OF
WHAT YOU NEED TO
KNOW FOR OUR BASI
LEVEL 2 COURSE IN
NISEKO, JAPAN**

WELCOME

We have been successfully running our season instructor program for nearly 20 seasons in Europe and Andorra and are now running it for the first time in Niseko, Japan.

Our reputation in the snowsports industry has come from providing the most cost effective training and certification courses out there. Our training plans and philosophy comes from over 20 years of specific instructor training experience - This is very different from teaching recreational snowboarders.

Our BASI level 2 program means you have to be a BASI level 1 instructor before embarking on our season program. Our unique approach is to help you complete this BASI level 1 course in the UK during the months of April to November at one of our partner venues. We work with Tamworth Snow Dome and the Hemel Snow Centre. In doing it this way we believe it focuses everyone as to what's needed to become an instructor far earlier than the traditional "gap" programs.

Our winter program gives candidates the best possible chance to pass this higher level course. Not only do you receive training from the highly qualified BASI instructors and trainers but you also get to experience what it's like to be a "local" and part of ski/snowboard scene in a Japanese winter village. Something that will be invaluable as an instructor in the years to come.

WHERE IS THE COURSE?

This Level 2 winter course take place in Niseko, Japan. This place needs no introduction as the record snowfalls of the past 2025 winter were all over the news. This place coined the term Japow.

We offer everything you need to be with us for 3 months in resort including a full area Niseko season pass as well as a Moiwa pass so you can literally ride everything the area has to offer.

WHO CAN ATTEND?

The course is open to all level 1 qualified BASI instructors*

You **WILL NEED** to be a fully paid up member of BASI and have your level 1 before arriving in resort with us. We will help you with this so please keep reading.

During the winter you will need to log an additional 35 shadowing hours. This can be done in resort. However, it is a [strong recommendation](#) that you have as many of these extra 35 hours done by the time you arrive in resort. This takes the pressure of trying to get them ALL done in resort as well as attending the training program.

* Candidates from other training organisations such as CASI, AASI, NZSIA are of course welcome on this program as your level 1 will allow you to cross over. Please contact us for more information

We also have a work and Earn program - More details later in the pack.

NEW WORK OPTION

WORK & LEARN
WITH OUR JAPAN
WORK OPTION

READ ON IF YOU ARE THINKING ABOUT WORKING *

If you fancy taking our work option then you not only have the chance of work around the training program but also a much longer stay in resort with a more flexible option of travelling at the end of the program.

The process can take 3 months so we need to start the application by September 2026. If you are reading this AFTER this date then please talk to us and we can help the best we can but you may not get your visa for the start of the season.

Our work option costs more as we have extra work and costs to obtain the permit on your behalf and you have extra weeks included in your stay with us. Doing this option see you arriving early December and while our accommodation finishes at the end of March, the work visa then gives you the option of staying extra and travelling around Japan at the end of the winter season.

HOW DO I GET A VISA:

Now in Japan there are 3 ways we get you a visa:

Under 30 Working Holiday Visa: We can price a working holiday visa for you if you are under 30 years old. This is the simplest way to go about it.

36 Months experience: If you have had your Level 1 or 2 for 3 years, then we can go down this route.

Ski Level 1: Yep crazy but true, if you have a ski level 1 already in place then we can use this to get you a visa. Weirdly a snowboard level 1 is not recognised as enough to get a visa. But if you are under 30 then you can get a visa and use the Level 1 snowboard to teach snowboarding.

So if you are over 30 and don't have 36 months of experience and want to get a work visa you will need to do a ski level 1 instructor. For snowboarders we can offer a program of training ending with a ski level 1 exam through our partner centre, Tamworth Snowdome.

BASI SKI LEVEL 1 TRAINING & EXAM:

We will be offering training sessions through the year, culminating in a Level 1 ski.

You don't have to do the ski level 1 through us, if you prefer to do training more locally to where you live we will help you all we can with all the advice you need.

REMEMBER: EXTENDED STAY WITH OUR WORK VISA

As mentioned before, another advantage of taking our work option is the chance of an extended stay. The visa makes you exempt from the 90 days so will be arriving early December and departing end of March.

WHAT CAN I EARN ?

OUR 2027 -JAPAN WORK AND LEARN!

We have a unique opportunity to work with our partner school during the busy Christmas and New Year period as well as the Chinese New Year holiday at the end of January going into February.

We will also be accommodating with our training sessions so you can maximise extra teaching work during the season should the opportunity arise.

So not only will you be clocking up extra hours towards your level 2, you will also be able to gain valuable, real teaching experience and earn some extra money to offset some of your costs for this course.

Don't forget the work visa also allows you to work in local bars and take any other work you feel you may want to do in resort during your time with us.

There is potential to earn in excess of £3,000 working during this time and probably more !

OUR WRISTBANDS

OUR "LOCAL" WRISTBAND:

Each year we arrange awesome local discount in our favourite bars, restaurants and coffee shops in Niseko and Kutchan.

Our SBcoach wristband tells all the bar staff in our favourite places that you are with us and that you get local seasonaires price straight away. Some of these places even offer us a special SBcoach only price, that not even the locals get...

We try and make you feel part of the great local scene in Niseko from the first day you arrive with us.

The idea sounds cheesy but it works!

The band itself is fully waterproof and shower proof so is fine to wear every day.

A full list where it works will be sent to you prior to arrival in resort.

LEVEL 2 SCHEDULE

TRAINING SCHEDULE

Constant input and coaching does not work, you need time to practice!! This is why our coaching routine is set up this way below.

WORK ARRIVAL OPTION: FIND YOUR LEGS!

Arriving early? Then spend the start of the winter riding, getting to know the resort and locals and generally enjoying the start of your season away. You'll also be preparing to work over the busy Christmas and New Year period.

STANDARD ARRIVAL: GETTING TO KNOW NISEKO

This first week will see us getting used to the resort and being in the mountain and at altitude. We will have a welcome meeting and 3 x 3 hour sessions involving a tour around the slopes of Niseko and Moiwa and a few beers in the evenings introducing you to our favourite bars, so you get to see what the resort has to offer.

FOLLOWING WEEKS: TRAINING TIME

During this period we will have 3x5 hour sessions each week. These will be a 3 hour morning session followed by a 2 hour afternoon session. All our coaches' who run this program hold full cert ISIA/ISTD qualifications under the BASI system with Ash bringing over 20 years of examiner experience to the course. Also from week 2 you start shadowing our partner school to build those teaching hours.

Even if you have worked a lot indoors - The mountain is a completely different teaching environment. As part of the above you'll receive regular video feedback sessions to see how your riding is progressing. You will also practice delivering teaching sessions.

CHINESE NEW YEAR:

There will be no training over this period. But as mentioned earlier in the pack if you have our work visa option then you will be working. If you are on our non work season option then this is your chance to gain your remaining shadowing hours. By the end of this week every candidate must have the minimum 70 hours of shadowing/work.

AFTER CHINESE NEW YEAR: MORE TRAINING TIME

You'll know everything you need to know about your riding by now and what you need to work on to pass the level 2. You'll be making comments on your own video runs, riding all the mountain very well and gearing yourself up for the final push in the coming weeks. You will also be confident in teaching the central theme and be happy to conduct sessions beyond the central theme.

BASI LEVEL 2 EXAM....

The exam will run 22 Feb-3 March. This is about putting together all that you have learnt during your time with us.... This is the BASI L2 exam.

AFTER THE EXAMS:

You'll now have a few weeks to ride, travel, work...whatever, before leaving Niseko at the end of March.

PLEASE REMEMBER: Outside this program, it's all about practice and getting up the hill and working on your feedback. The more effort you put in during the season the more you will benefit during the exams.

THE BASI SNOWBOARDING ETHOS:

The ethos of BASI snowboarding is about flow and output ie what the board is doing. This depends on the snow we are riding and the task at hand. It's not, do this and do that - we don't spoon feed you on the Level 2 course. As you become more aware of your riding, you will need to become more aware of how you personally use the fundamentals that you are being taught. The more aware you are of this, the nicer your riding will feel and the better rider you will become. 'Snowboarding isn't black and white'

Of course we are going to tell you what you need to fix and give you exercises to improve these weak areas, but part of the course is you figuring out and feeling what works best for you from the information that we give you. How much fore, how low to ride, how high to ride. We can't tell you this, you need to feel this. You will notice the way your coaches ride, we all use the same fundamentals of snowboarding but in varying amounts, yet the outcome - the riding - looks smooth and flowing. This is what we want to teach you.

EVERYBODY is different, we bend, move, stand and sit in many different ways and you will find that you may use a different fundamental more or maybe less than somebody else.

During the exams the trainers will continue to push your riding and may use new exercises and drills that you not have done, using different explanations of the same fundamentals....Its all about the above - making YOU think and FEEL more - "What suits me the best?"

This course is not only about preparing you to take the exams but to train you to be responsible for yourself and prepare you for the role of an instructor in seasons to come.

WHERE DO I STAY ?

WHAT'S THE ACCOMMODATION LIKE?

Our SBC apartments are located in Kutchan.

Kutchan is 5 mins outside Niseko village. It's a working village/town which is where pretty much all of the resort workers stay. The bars and restaurants are way cheaper because of this and way less touristy. A more authentic Japanese town.

Our modern apartments do have full kitchen cooking facilities as you would expect. Local food places are pretty cheap to eat out, but if you prefer to stay in and relax then you have the option to make your own food and chill.

Remember on training days transport will be provided so we know everyone is on time ;)

Our accommodation has full kitchen cooking facilities as you would expect. But eating a £2 bowl of authentic Japanese ramen is always better than cooking!

Unlike other companies, we do not cram people into our accommodation. You WON'T be sharing 4 to a room with us. Accommodation will be 2 per bedroom. Couples are obviously allocated a room together. Bedrooms have under bed storage or wardrobes. Being honest the only time you will spend in the bedroom is when you're sleeping!

DEPOSIT

A damage deposit is payable on top of the course fee by every candidate. If the accommodation is left **as it was found** then this will be returned after course,

Any damages, cleaning, breakages etc...will be billed at the cost to put right and this will be split between everyone in the accommodation (or the person who caused the damage)

BILLS:

All bills are included. This includes water, heating and electric. As snowboarders using the mountain we should be concerned about global warming and energy saving. Just because the bills are included doesn't mean you can forget about them. Simple things like turning the heating and lighting off when you go out will make a big difference.

SHEETS, CLEANING & WASHING: A set of bed sheets are provided and can be used/washed on a rotation basis.

FRIENDS STAYING POLICY: If we have space in the accommodation then friends are more than welcome to stay for a cost. This cost will be based on the time of year they are planning to come out.

TESTIMONIALS

Over the years of doing these course we have developed a great Snowboard Coach family and we all keep in contact. Many of them are now living and teaching snowboarding all over the world. Below is some feedback from those guys to help you make your mind up about joining us. Please feel free to contact us and we can even put you in touch with previous course candidates.

BEN FAGAN

Had the best time of my life this season completing my level 2 with Snowboard Coach, met some amazing people and got to improve my snowboarding massively.....

Ash and Olly were brilliant.

Having only completed my level 1 just 8 months prior I was quite worried about going straight for level 2, but with Ash and Olly's training over the season, I felt well prepared for the step up and couldn't recommend the course highly enough.

Doing the whole season has also given me a proper insight on how to being a season instructor works and has made me realise that now I want to pursue this hobby as a career.

RYAN MEADOWS

Taking my L2 Snowboard exam with Snowboard Coach was a massive life changing experience for me.

That sounds excessive, but it truly was.....

I got to meet people from all over the world, all of whom made me feel so welcome. The course was challenging but fair and I felt that every day I spent on the board, I learned something new.

The SBC crew were phenomenal and helped me to understand the sport and instructing, in a completely fresh way. I'm extremely grateful to have had the opportunity to spend my winter with such amazing people, living the dream and snowboarding every day..... I only wish I could do it all over again.

Thanks to you guys for everything....its been awesome!

FF

MAX JOHNSON

It was quite a last minute decision for me to spend 3 months with Snowboard Coach. I had found them by digging around on the internet in the Autumn and it seemed like the best choice to me as their reviews were amazing.....

I couldn't have made a better decision, my quite limited knowledge of snowboarding was quickly expanded by the great coaching I received on the season course.

The course made me look at snowboarding very differently and it particularly helped me to better understand what it takes to be a snowboard instructor, not just in terms of technical ability but how we engage a group of people and how to progress with our own riding.

I actually failed my Level 1 but with Ash and the crew coaching me through my Level 1 resit in February and thanks to their great teaching I went on to pass my Level 2 in March.

I would definitely recommend Snowboard Coach to anyone looking to further their own ability and understanding. Whether you want to progress your riding or your teaching, these guys have got you covered!

FF

JAMES KITE

I've been waiting to do my snowboard instructors exams for the past 3 years since meeting Ash when I was 15.

This season I got to do it.....

As soon as I turned 18 I knew I wanted to do a season with Ash and Snowboard Coach. The fact that everything was included was a big plus for me and the price was a no brainer - its a bargain for what's included.

Ash and his crews' reputation is second to none and after spending the season training with them I can see why.

It was an awesome course and learning from Ash and the crew was amazing. It's completely changed my view on what I thought I knew about my riding. I realised I new nothing when I started, even though I thought I did!

I had to work hard to change my riding to get to the level. But I did and that feeling of passing was better than any exam I've ever passed.

I'm now a Level 2 snowboard instructor. Big shout to Ash and Olly and Miles for getting me there and roll on next winter as I have secured a job teaching in Japan.

JJ

JAAAAAPPPPOOWWW!

YOUR RESPONSIBILITIES

We ask every candidate to be professional and respectful at all times not only to your trainers but also to your peers - the people you will be living with for the season. Understanding other people's needs and being able to manage them as a team is a big part of being an instructor. You will also get to know a lot of people in Niseko and will be known as part of the snowboard coach crew. It's a small friendly Japanese town so creating the right impression is paramount. Remember we are not just looking at your snowboarding skills but also how you would represent BASI as a working instructor in a resort environment.

The courses are not to be taken lightly and you will be pushed with your riding and your teaching. But you will learn loads of things that you would never even think of and WILL ride the mountain better than you ever have done.

We will be asking all candidates to be punctual for the training sessions. They are not compulsory but missing them WILL put you behind in the training program. Turning up hungover because you went out the night before would not be too good for your own development.

THE COURSE IS NOT A GUARANTEED PASS: We will give you all the tools and feedback you will need to pass the course and the video feedback sessions will be invaluable. But we are not in control of how you learn or your ability to improve or indeed how much effort you put it...that bit is up to you.

We encourage you to use the time in resort wisely. The more you practice around our training program and take charge of your own riding and learning, the more chance you have of success.
